

## Required Immunizations:

Applicants for clinical training at Tokyo Medical University Hospital (TMUH) are required to obtain the following immunizations.

Please fill out the following Immunization Form signed and stamped by a healthcare provider.

### Others:

- It is recommended to have **an influenza vaccination** if you undergo clinical training during the influenza season from November through March.
- All healthcare personnel who have a reasonable chance of exposure to patients' blood and body fluids should acquire immunity to **Hepatitis B**.

## Immunization Form

Name: \_\_\_\_\_

University: \_\_\_\_\_

Date of birth: \_\_\_\_\_

Sex: M/F

### Results of Antibody Titer:

	Date	Titer	Method	Immune or Non-immune
Measles				<input type="checkbox"/> Immune <input type="checkbox"/> Non-immune
Mumps				<input type="checkbox"/> Immune <input type="checkbox"/> Non-immune
Rubella				<input type="checkbox"/> Immune <input type="checkbox"/> Non-immune
Varicella				<input type="checkbox"/> Immune <input type="checkbox"/> Non-immune

\*If serologic testing shows lack of immunity, booster shots are required. In this case, please provide a copy of your additional vaccination record.
